Continuous education is a major pillar of Esaote's dedication to even better Veterinary MRI application.

The venue that we have selected for the 2015 education program is at one of the best european small animal clinics (www.tierklinik-haar.de), located nearby Munich (Germany).

In this Vet MRI hands on training course, you will learn from veterinary imaging experts and share experiences with other Vet MRI users, to improve your skills and take full advantage of your MRI system's capabilities.

Moreover you will be provided with practical guidelines on how to optimize sequence parameters, position the patient and target the body structures to be studied with the proper coil, in order to produce high resolution images to diagnose with pinpoint accuracy.

This is not a sit and watch session, in fact to boost interaction, attendees will be divided into groups for case lab and live sessions on the Vet MRI Grande system, for a complete educational experience.

FOR THIS REASON THE HANDS-ON-TRAINING SESSION WILL BE LIMITED TO A MAXIMUM OF 18 ATTENDEES.
